 GLOSTER

TEAK, CRAFTS & INNOVATION

Made by nature

Gloster's production of teak is characterised by our approach. We understand our resources and we know our wood.

A Gloster teak tree has a lifecycle of at least 50 years - and our wood can always be traced back to its origin. We believe that our customers must be able to trust us, so we treat the world, its resources and its people with respect.

H

OUR HERITAGE

Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. By the late 1980's, increased demand and access to plantation grown teak led us to move our factory to Indonesia. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.

TEAK & PLANTATIONS

The benchmark hardwood for fine outdoor furniture for more than 700 years. With a beautiful, soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures. A close-grained hardwood with a high natural oil content, teak is exceptionally hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow - the first and only choice of timber for outdoor furniture.

Gloster's production of teak is characterised by our approach. We understand our resources and we know our wood. A Gloster teak tree has a lifecycle of at least 50 years - and our wood can always be traced back to its origin. We believe that our customers must be able to trust us, so we treat the world, its resources and its people with respect.

Refined by hand

Skills & loyalty, tradition & progress.
Gloster and fine craftsmanship go hand
in hand.
human hands have created every
rounded corner and every joint.

The quality of the furniture is the result of our employees' knowledge and skills.
Our furniture must speak a language that all understand - a language that awakens
curiosity and looks forward and outward, so the past and future merge into a
bold present.

D

DESIGN & INSPIRATION

Of course, great manufacturing is wasted without great design. Gloster currently works with several world-renown designers to create timeless outdoor furniture. Once a concept is approved, designers work closely with the development team at our factory to further refine their designs. And even in this digital age, we insist our designers travel to and spend time at our factory so they get to know our people, our raw materials and our philosophy.

ESSENTIAL

GRAND SAIL

Ease into Grand Sail's deeply sumptuous cushions and delight in the attention to detail as you are supported by finely finished frames and surrounded by premium materials with stylish tables in easy reach. Lie back, relax and dream of the tomorrows to come.

20 | 21

GRAND SAIL

The modern yacht is a triumph of engineering, a pairing of sophisticated yet resilient materials and the pinnacle of grand refinement. An impeccable feat of design that facilitates adventure and indulgence in equal measure. Grand Sail pairs this notion of oceanic exploration with the safe haven of home.

Henrik Pedersen, award winning designer from Denmark says of his design; "The idea was to create a soft, cozy setting with modular flexibility. A selection of structured fabrics allows for personalization, and the mix of textiles adds an extra tactile dimension"

Every element
serves a purpose.

The Grand Sail collection comprises a 2-Seater Sofa, Left and Right End Units and Centre Unit, as well as in-line or freestanding Side Tables and a Coffee Table.

GRAND SAIL – an immersive voyage of comforting discovery.

Frames are formed from striking aluminium horizontals that curve gracefully into mast-like verticals finished in lightly textured, Meteor or Bone colour powder coat. These support sleek outdoor fabric 'sails' fashioned from complementary fabrics tensioned around a secondary aluminium frame. Seat cushions are topped with large pillows and smaller lumbar cushions. Occasional tables have matching frames and the option of either natural finish teak or ceramic tops in a variety of colours.

WRAP LOUNGE

There is nothing better than a trusted embrace. To surrender to a feel and form that reassures, soothes, supports. Imagine the joy of knowing this comfort is waiting, unwavering - to welcome you time after time. At a place special to you.

28 | **29**

In a literal embodiment of the name, a durable woven one-piece seat and back appear to drape over frames born of soulful Scandinavian simplicity.

WRAP LOUNGE

The generously proportioned Lounge Chair is perfect for sun kissed terraces and laid-back laughter under the deepening mauve of a tranquil eve. The sustainably sourced teak frame pairs impeccably with either Sorrel or Umber, natural look man-made fibre and is finished with sumptuous cushions designed specifically for outdoor use in a wide selection of all-weather fabrics.

WRAP DINING

An elegantly styled Dining Chair echoes the design language of the lounge chair and completes the collection.

34 | 35

WRAP DINING

Wrap is more than metaphor. Paired with minimal yet comfortable cushions, Wrap's gentle contours deliver comfort beyond estimation.

With Wrap we have realised something almost organic, as if evolved.

Henrik Pedersen, the creative force behind Danish design house 365North emotes; “Soft, flowing materials embrace a simple frame, curving, shaping around the structure, folding at the edges. This mimicry of natural dynamics is what makes Wrap so comfortable, intuitive, easy to relate to.”

RAIL

The very name suggests a journey - lines stretching out, converging at a distant point in front and behind. To the future, and to the past. Connecting experiences had and those yet to come. Rail speaks of tradition and an age of exploration. But also of opulent travel and horizons to be crossed. Rail is timeless. Iconic.

Understated form and peerless engineering combine.

Realised by Gloster's internal design house, the Rail dining table draws upon Gloster's rich history of teak furniture manufacture. The table's frame is beautifully crafted from individually selected, hand finished, sustainably sourced teak. Gentle radii set the frame apart from traditionally square section profiles and cleverly hidden fastenings ensure Rail's simple, sturdy frame effortlessly supports an elegant and durable ceramic top.

RAIL

Rail's design language promises timeless popularity while perfectly paired materials pledge enduring service. Designed to be a centre piece and stylish companion to any combination of Gloster's dining chairs, the Rail Dining Tables, available in either 240cm or 290cm length, represent the understated mastery of design and craftsmanship that Gloster has become known for.

COMPASS

It could be nostalgia, a natural inclination towards the certainty of an analogue age. Or perhaps it's simply the delight of crisp design, an aesthetic unsullied by empty embellishment. Either way, like its namesake guide of yesteryear, Ambient Compass leads the way in impeccable style amongst a world busy with unnecessarily complex solutions.

Compass's timeless form harmonises with any aesthetic, bringing a beautiful ambience to any evening and stylish chic to daylight decor.

COMPASS

Generous panels of sustainably sourced, hand finished teak are juxtaposed as if compass points, detailed with gently rounded edges and finished with a cleverly integrated handle. Shades are hand woven using a natural look, brushed fibre, that creates a tactile finish and delivers a beautifully diffused glow when lit from within. Available in two colours of wicker and in three sizes suited to table-top and floor standing use alike.

GRID - a name that describes both function and mind-set.

Conceived as a bridge between stark minimalist design and large-scale luxury, a few simple units form the basis of a totally flexible seating system combining individual elements to meet specific needs.

GRID

A natural extension of the Gloster colour palette, the new Bone colour powder coat finish on Grid frames is the perfect combination of sophistication and subtlety.

54 | 55

FERN

There's a quiet poetry in the way a fern leaf unfurls - a slow, deliberate gesture of protection and growth. Capturing that same spirit, the Fern collection by Sebastian Herkner translates the language of nature into furniture that feels both imposing and welcoming. More than a seat, Fern is an invitation to pause, settle in, and feel enclosed by comfort.

FERN

The language of nature, translated into furniture. Designer Sebastian Herkner explains: "For me, Fern was about creating something that feels as though it has grown from nature itself. The shape embraces you, it shelters you, while still remaining open to its surroundings. It is a dialogue between strength and softness, structure and comfort."

58 | 59

Perfected by weather

kiln dried timber combined with accurately crafted, close fitting joints ensure the stability of furniture in a variety of environments - frost and snow in winter to rain and sun in summer.

At Gloster we combine only the best materials and fabrics, to ensure a finished product that is as practical as it is beautiful. Time and weather may take their toll, but integrity endures as surfaces become more refined and expressive over time.

VILLA MOREY

A PARADISE TO LIVE

Location is Always Part of the Story

VILLA MOREY LOCATION

Between the bustle of Puerto Portals and the calm of Calanova lies a small stretch of coastline where the Mediterranean seems to breathe more deeply. Illetas sits here - framed by pines, carved coves, and the soft geometry of cliffs that have watched generations come and go.

Along the sun-creased coast between Puerto Portals and Calanova, life moves with an ease that borders on theatrical.

One harbour sparkles with polished hulls and late-night conversation; the other murmurs in a quieter, more dignified tone, as though each yacht has a lineage, a memory. Between them, the shore folds inward to form Illetas - an enclave where the sea feels close enough to touch and time begins to slow, not out of laziness but out of reverence.

People come here for many reasons: indulgence, escape, the promise of a Mediterranean rhythm that always appears slower from afar. But the truth is subtler. Life between these harbours isn't simply leisurely, it is layered. A blend of privilege and restraint, sea breeze and stone, cosmopolitan appetite and island ancestry. And in the midst of this rare pocket of land, limited by coastline, protected territory, and the sheer exclusivity of its surroundings, stands a home that attempts to distil all these contradictions into harmony.

MORE THAN A VIEW

THE HIDDEN VALUE OF WHAT
MEETS THE EYE

Along the southwestern edge of Mallorca, the coastline is a theatre of perpetual motion. Sun-glazed mornings where locals linger over ensaimadas, long lunches drifting toward late afternoons, the flash of yacht hulls cutting the turquoise in slender strokes. Between Puerto Portals, with its glossy parade of restaurants, boutiques, and boats polished to a sailor's pride, and the quieter, almost aristocratic harbour of Calanova, the hours spill outward like warm sand between open hands. Here, the landscape is the keeper of rhythm. Pine forests bend toward the breeze, coves carve themselves into soft crescents, and the Mallorcan light has a habit of lingering on stone as if reluctant to move on.

Architecture imagined in a home rooted in both memory and modernity.

Architect Toni García-Ruiz traced a new beginning with Villa Morey, though to call it new is to overlook the deep threads that brought it into being. His heritage is woven into Mallorca's history: father, grandfather, figures who shaped the island's architectural lexicon. Their understanding of shade, texture, proportion, and the cultural patience of Mediterranean life forms the quiet foundation beneath every line Toni draws. His work here is not a departure but a continuation - a conversation between generations about how to dwell well in a landscape that has always asked for respect.

Two modest houses once stood on the united plots, long settled into silence. They were not erased but released, their stones folded back into memory. In their place rises a home that feels less constructed than revealed - as if unearthed from the meeting of coast and hillside, shaped by salt air and ancestral instinct.

DECK DINING

Inspired by this most integral part of the fastest and finest sailing vessels of yesteryear, Deck's simple, yet visually striking design invokes an uncompromising air of quality and craftsmanship. Broad, long teak slats are refined with impeccable precision by talented craftsmen and women.

BORA DINING

The rounded woven backs paired with all-weather fabric cushions create a soft and inviting seat. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a combination of fine craftsmanship and classic, Scandinavian style.

A home between harbours, anchored in history, carried by light, and made for a life lived beautifully.

A home that invites you to slow down,
breathe deeply, and rediscover what quality of
life feels like when space, light, history, and
landscape all speak the same language.

BORA DINING

A combination of the tactile and the ethereal, Bora alludes to the imposing, climatic winds that buffet and ruffle the Adriatic coast. Simultaneously the name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos.

An enduring refuge shaped by
lineage, landscape and nature.

DECK DINING

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Perfectly engineered to bear the weight of endless possibility and endure whatever tribulations may be encountered along the way.

Architecture where life
slows just enough for
its richness to be felt.

DECK LOUNGE

Charged with the freedom of movement and possibility,
Deck's large, low and flat bases provide opportunity for
endless seating combinations of unrestricted size.

Cross the threshold and
the world expands.

NAVIGATOR DINING

The timeless reimagining of vintage campaign furniture -
equally at home in any space. From yacht deck to suite
terrace or penthouse balcony.

AMBIENT MESH

Recognising that social spaces deserve more than
functional lighting, Ambient Mesh blends purity of form
with quiet utility.

A balance - between land and sea, tradition and modernity, heritage and innovation.

BORA SUNLOUNGER

Seating for all occasions is provided by a comprehensive range of Dining Chair, Lounge Chair, Sofa, Ottoman and Lounger. All are available in two wicker combinations – either the bold and dark Umber or a lighter, warmer Sorrel colour.

AMBIENT NEST

Ambient Nest captures a quiet magic in the cooling eve, creating a subtle symphony of texture and glow, transforming outdoor spaces into intimate sanctuaries where conversations linger and time stretches a little.

The Mediterranean is not a backdrop but a partner. Here, architecture becomes biography. Here, life is lived not faster or slower, but truer.

BORA SUNLOUNGER

The Bora sunlounge pairs flights of fancy with functional requirements to flow flawlessly into a form to be reckoned with.

BORA SUNLOUNGER DETAILS

Although using manmade fibres, through a clever combination of individual strands of varying colour and the application of a distressed, tactile finish, Bora's woven element achieves an unquestionably natural simplicity.

BORA SUNLOUNGER

The lines, strength and integrity of Scandinavian design cannot be missed in Bora's frame, and the intricate use of woven fibres is integral to its tactile form.

This is not merely a home but a conversation... Between the pragmatic comfort demanded by everyday life and the gentle luxury of living beautifully.

BORA SUNLOUNGER

A combination of the spirit and style of contrasting coastal cultures. A little from this sea, a little from that.

AMBIENT SOL

A stylish and dramatic shade by day, a beautifully integrated LED light unit provides subtle illumination as evening approaches and the shadows fade into night.

BORA LOUNGE

The rounded woven backs paired with all-weather fabric cushions create a soft and inviting seat. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a combination of fine craftsmanship and classic, Scandinavian style.

Subtle materials come together like chapters in a book, grounded in craftsmanship and Mediterranean sensibility.

AMBIENT NEST

Ambient Nest captures a quiet magic in the cooling eve, creating a subtle symphony of texture and glow, transforming outdoor spaces into intimate sanctuaries where conversations linger and time stretches a little.

Here, architecture and nature are not opposing forces but mutual participants. The pergolas cast moving lattices of shade, echoing the patterns of pine needles above. The stone underfoot warms and cools with the day. Every element is designed to let the senses register the passage of time - morning brightness, afternoon stillness, the long slow breath of dusk.

AMBIENT SOL

A stylish and dramatic shade by day, a beautifully integrated LED light unit provides subtle illumination as evening approaches and the shadows fade into night.

Luxury has little to do with excess. It is measured instead in orientation, silence, breeze, and the privilege of feeling both protected and connected.

Spacious yet intimate. Structured yet whimsical. Architectural yet deeply, unmistakably human.

Green spaces
embrace outdoor
terraces like an
old friend.

AMBIENT SOL

From daybreak to dusk we are illuminated, comforted and inspired by our nearest star. An imposing disc, its appearance beyond the horizon is synonymous with positivity, growth and new beginnings. Its gleaming arc has inspired awe since time began and as its daily cycle nears completion, the world is united in appreciation of its beauty.

BORA SUNLOUNGER

The lines, strength and integrity of Scandinavian design cannot be missed in Bora's frame, and the intricate use of woven fibres is integral to its tactile form.

Steel-framed glass pulls the landscape inward, blurring where home ends and island begins.

FERN LOUNGE

Inspired by the delicate fronds of its namesakes unfurling leaf, Fern by Sebastian Herkner is an imposing, yet cosy collection with a design language that harks back to nature.

BLOW SIDE TABLE

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with sustainably sourced, plantation teak table tops.

A building with island manners: composed, deliberate, aware that the spectacle belongs not to it but to the sea and to the landscape.

Nature maintains a constant dialogue. Pines move like brushstrokes in the wind, terraces slip into gardens, and the pool, its stone shimmering between blue and green, mirrors the sky's shifting moods. Pergolas lace the light, echoing the dappled shade of forest paths. Indoors and out, the architecture frames a quieter rhythm of living: mornings that stretch, evenings that soften, days measured in light rather than hours.

Flexible spaces below wait for future stories; private rooms above open discreetly toward the horizon. Throughout, the home balances openness with intimacy in the same way the coastline balances its two harbours—connected yet composed, alive yet unhurried.

FERN LOUNGE

More than a seat, Fern is an invitation to pause, settle in, and feel enclosed by comfort. Unquestionably Scandinavian in its clarity of line, yet unmistakably organic in form.

FERN LOUNGE

There's a quiet poetry in the way a fern leaf unfurls — a slow, deliberate gesture of protection and growth. Capturing that same spirit, the Fern collection by Sebastian Herkner translates the language of nature into furniture that feels both imposing and welcoming

FERN DETAILS

Grounded in the strength of Gloster's plantation teak, Fern is softened by an enveloping backrest of outdoor rope, hand-woven about a colour matched aluminium frame and deeply inviting all weather fabric covered cushions.

Luxury measured by silence, breeze, and the privilege of feeling both protected and connected.

Toni García-Rui reflects this in Villa Morey. A home that opens itself to the world without surrendering its privacy, that honours tradition without repeating it, that offers comfort without waste.

If you are yet to
discover Salina, there is a
delight unknown that
awaits you.

Raised starkly from beneath the Mediterranean Sea by volcanic activity then shaped and softened in a tumble of elements and flora for millennia, this perfect part of a small archipelago, a touch north of Sicily, is exquisitely crafted by nature. So, the inhabitants of this verdant jewel are fashioned in turn by their surroundings. Life is simple. Structure and form are defined by objectives. Texture and tone are but casual combinations of weathered wood, tousled vines, piled stone. And the ubiquitous net, so prized to deliver quicksilver shoals from daybreak crystal waters to gregarious sunset dining.

SALINA COLLECTION

Salina's rustic and rugged materials are hewn, reduced and fused, refined to a point where simplicity of form infers reassuringly classic style.

Enclosed within, a teak base refined with stainless steel details is crowned with deeply inviting seat and scatter cushions.

SALINA DETAILS

Four teak poles mark the extremities of the Salina collection's signature

SALINA

Proudly, artfully echoing its island namesake. Salina's rustic and rugged materials are hewn, reduced and fused, refined to a point where simplicity of form infers reassuringly classic style. Then an integrated comfort delivers a contrasting opulence and promise of something truly, excitingly unique.

SALINA

Four teak poles mark the extremities of the Salina collection's signature lounge chair. These are artfully connected by fibre wrapped frames infilled with a mesh that speaks of both vine and net in equal measure. The innovative outdoor fibre used to craft the internal panels is characterized by a natural texture, creating an open, woven composition that is both gentle and familiar.

HAVEN

Haven. The name alone suggests a hideaway and it's with only the smallest shift of consciousness one can imagine drifting in a calm bay securely cradled by an exquisitely crafted vessel. Lying beneath the sun, one hand tracing the gently curving lines of the graceful hull holding you safe on the still waters of your very own retreat. A cooling breeze invites the sun to dance across the surface of the ocean and the shimmering light signals a personal message that this tranquility is yours alone to enjoy.

HAVEN

Designed with a nod to the nautical, Haven's solid teak frame combines deep, gently curving slats to create subtly rounded back and side panels, intended to envelop and enclose and create a sheltered and comforting environment in which to relax. This sense of security and comfort is further emphasised with a deep and luxurious cluster of seat cushions and back pillows.

HAVEN

Sebastian Herkner, the German designer of Haven says of his concept "With broad sided symmetry and a graceful hint of yacht-like curvature, Haven conjures a sense of impeccable craftsmanship and serenity. While the profile alone invites maritime musings, explore a little further and you will find this inference of seafaring style is by no means chance."

HAVEN

MIX & MATCH

The freedom of choice is yours...
Confident styling and a strong, simple colour palette combined with a sophisticated fabric collection, means that the Gloster 2020 lounge collection is more dynamic than ever.

GRID

When functionality is key and simplicity is the only design cue needed, Grid's elementary format is the perfect solution for deeply comfortable seating in a stylish world. Conceived by Danish designer Henrik Pedersen as a bridge between stark minimalist design and large scale luxury, Grid combines slim, aluminium frames powder coated in Meteor, White or Java with the elegant geometric forms of deep and comfortable seat & back cushions.

GRID

With Grid, the only limiting factor is really your imagination. Available in a variety of compatible sizes, the complementary units form the basis of a totally flexible seating system where you can combine various individual elements to meet your specific needs.

GRID

Grid - a name that describes both function and mind-set. A grid of complementary units forms the basis of a totally flexible seating system where you can combine various individual elements to meet your specific needs.

124 | **125**

BROWN COLOUR WAY

Choosing the right fabrics and combining the right colours are essential for the right result and we strive to make our furniture collection colour co-ordinated across the individual themes, making it easy for customers to mix and match. New for 2022 is the addition of a collection of new fabrics to complement the brown colour way introduced for other materials. Our popular Blend fabric series is expanded with a new 'Latte' colour. A new series of Heritage fabrics feature a soft, textured finish - while Hunt fabrics display a subtle, geometric 'check' pattern in contrasting yarns to highlight the warm tone of the base fabric.

GRID

When functionality is key and simplicity is the only design cue needed, Grid's elementary format is the perfect solution for deeply comfortable seating in a stylish world.

GRID

Danish designer Henrik Pedersen conceived Grid as a bridge between stark minimalist design and large scale luxury. By combining slim, aluminium frames powder coated in Meteor or White with the elegant geometric forms of deep and comfortable seat and back cushions, Henrik has surpassed his goal.

GRID

A Red Dot Award winner, Grid features fully upholstered outdoor cushions in a wide choice of outdoor fabrics. With matching side and coffee tables with slatted teak or durable ceramic tops, the Grid collection screams taste and style with quiet confidence.

GRID CABANA

Sunset to dusk to the rich blue of night; dream hours away sheltered in your own private cocoon far from the madding crowd. Use it as you will; with stylish striped fabrics, luxuriously deep outdoor cushions, oversize pillows and a handy integral shelf for personal effects, Cabana is unquestionably the ultimate outdoor personal space.

ARCHITECTURE

WILL ALWAYS BE A PART OF THE BACKDROP

Open spaces release the heart and the soul. Vast horizons quietly and gently remind us of a freedom lost for centuries. It's no surprise we love the soft dawn, that we wonder at the ruby and amber of a sunset - lost momentarily as the world revolves.

But even nomadic people crave structure. We all need a silhouette against the bright wilderness. A glowing doorway amongst creeping darkness. To step through and to feel at home.

GRID CABANA

Speaking about Cabana, the Danish designer, Henrik Pedersen says; "I hoped to create a shaded and sheltered second home for one, two or more to escape within - the perfect vessel in which to cast yourself free."

146 | 147

MAYA

When the Cloud range was launched in 2010, it incorporated new thinking and technology in the design of the upholstered elements and made these as comfortable as their interior cousins. Cloud not only invented the 'outdoor lounge' category, it went on to define it. So how do you improve this? It is often easier for a designer to start again rather than take an existing design and make it better. This was the challenge; the gentle, but meaningful evolution of an existing idea. To distil and keep the spirit of the original, but refresh the aesthetic and expand its possibilities.

MAYA

Maya frames feature an ultra-slender powder coated aluminium profile connected to cast aluminium legs. Side and back cushions are subtly revised in profile and detail and additions to the range include console tables and planters that allow for a series of living landscapes to be created outdoors.

ZENITH

The Zenith collection marks the peak of the Gloster design aesthetic. A blend of diverse materials combine in a lounge collection that is simple, yet striking. Modern yet familiar. Luxurious yet practical.

ZENITH

As the sun's arc describes another day, fleeting clouds and spreading shadows create a patchwork of light and shade. Pushed and pulled by transient light, breezes dip and roll alternately soothing, then interrupting moments of calm. Days outdoors will always bear the weight of uncertainty. There is no perfect solution. But there is a way to move with the elements - to embrace each changing instance to its fullest.

ZENITH

Zenith's designer, Henrik Pedersen is driven by reaching for the heights of fine design, declaring; "This is all about the very top - the peak of comfort. The summit moment of your day. The perfect combination of considered design and perfect materials delivering a flawless experience. So of course, what name but Zenith could suffice?".

ZENITH

Conceived by Danish designer Henrik Pedersen, the Zenith collection consists of a stylish Lounger, matching Lounge Chair, Lounge Chair with Arms and Ottoman. All pieces are based on a softly profiled tubular aluminium frame offering a perfect balance of strength and style which is finished with a resilient Meteor colour powder coat. Seats and backs are formed in one continuous plain from hand woven, subtly textured Wheat colour outdoor wicker and topped with luxurious partitioned seat pads available in a variety of weather resistant fabrics.

The Zenith collection consists of a stylish Lounger, matching Lounge Chair, Lounge Chair with Arms and Ottoman.

Zenith's designer, Henrik Pedersen is driven by reaching for the heights of fine design, declaring; "This is all about the very top - the peak of comfort. The summit moment of your day. The perfect combination of considered design and perfect materials delivering a flawless experience. So of course, what name but Zenith could suffice?".

ZENITH

Zenith marks the peak of the Gloster design aesthetic. A blend of diverse materials combined in a lounge collection that is simple, yet striking. Modern yet familiar. Luxurious yet practical.

ZENITH SUNLOUNGER

Daringly mobile, brazenly inviting, unashamedly indulgent. Rarely has a piece of furniture appeared so unequivocally fit for purpose.

MISTRAL

Curl up in a soft landscape of upholstery and cushions partitioned and protected by impeccably handcrafted wraparound screens. With a perfect balance of subtle and sophisticated details, the Mistral seating group is designed to complement rather than control the surrounding aesthetic. With its pleasing chorus of symmetrical curves and a natural, neutral palette of colours, fine lines and delicate details abound in this low-key style collection from Gloster.

MISTRAL

Henrik Pedersen, the Danish creative behind some of Glosters' most successful furniture collections, likens his latest design Mistral to a small, standalone hideaway. But mindful that island life can be lonely, Henrik suggests combining several units; "like a small, private archipelago where you seek refuge and hang out in lazy summer days".

MISTRAL

An elegant combination of essential materials, Mistral is comprised of a tapered plantation teak platform supported by gently curving cast aluminium legs. Stylish, upholstered cushion pads provide luxurious comfort with a distressed finish, Koala colour outdoor wicker back panel to complete the look.

BAY

Can you recall that sense of escape? Of finally leaning back, forgetting your worries and staring out across the water towards the setting sun? Henrik Pedersen set out to capture the feel of sitting by the coast when designing the Bay collection. The reclined position emphasises an introspective and relaxed state of mind and is intended to create a sense of being at rest in a safe-haven.

BAY

Suitable for quiet family times and day to day life for the style conscious, the vintage lines of Bay's frame are crafted from Gloster's impeccably finished teak combined with upholstered outdoor fabric cushions. A matching slatted teak coffee table and side table complete this timeless collection.

BAY

Whether single statement piece or complete collection, slender minimal slings or deep seating indulgence, Bay represents a step into a simpler world. Take a moment to lie back and enjoy the view.

CRADLE

It's all about creating defined rooms, your own private oasis in the outdoor area, but still open and exposed to the elements - with a sense of enclosure. Luxurious for one, but big enough for two.

Indulgently conceived by the talented eye of respected Danish designer Henrik Pedersen, Cradle is the epitome of luxury. More than large enough for two, Cradle surrounds and comforts. With a selection of shades, privacy can be adjusted to suit. A variety of finish and fabric options as well as an integrated side table mean you can create your very own haven.

CASA NO TEMPO

Step away. Away from the film reel, the colour, the noise, the life. The series of frames flashing by... moments partitioned by the edges of other moments. The overwhelming spool of progress.

Stop. And turn. Turn off the majority route - follow the map of your heart. Free your hands from technology. Trail your fingertips through the tall grasses and kick up the dust along the way. Note the small things; footprints in the dirt, flowers in the sun. Meander towards your haven.

Conceived as a perfect balance between setting and statement, Casa no Tempo nestles at the end of a magical trail through Portugal's Alentejo region. The home is not just a renovation. It is the absolute rejuvenation of a ruined family enclave. Commissioned by the Grandfather of descendants to whom the surrounding savanna belongs, this shining phoenix rises proudly amongst the wildflower grassland.

Floor to ceiling glass pivots silently, effortlessly - opening all living space to the veld as brothers João and Andreia Rodrigues specified with the help of architect Manuel Aires Mateus. A short walk from the high ceilings and sunken fireplace of the tasteful interior leads to an imposing infinity pool scooped artfully from the plain.

And of course, in all this open space, the final focal point and comfort - beautifully crafted outdoor furniture, Grand Weave by Hendrik Pedersen for Gloster.

This is it. Away from the hustle. The only intrusions are grasses rustling in the wind, bird calls. The only pressure is barometric as the weather and horses race in parallel, unbridled across the open land. Lie back in comfort, and marvel as behind you your haven glows. The night sky deepens, starlight rushes earthwards and the moon dances on the lapping water.

This is why. This is what you have missed. This is not just living - this is being.

CARVER

In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, where the cross-rail and legs have been subtly sculpted, like pieces hewn from a solid block.

CARVER

Carver tables are expertly fabricated using extruded aluminium which is then finished with a durable powder coating in Java, White or Meteor colours. A cleverly designed corner casting ensures absolute stability despite the apparently delicate appearance.

CARVER

Carver tables are available in four sizes with either stylish horizontally slatted, teak or one-piece ceramic tops in either Nero, Bianco or Emperor colours.

CARVER

Designer Henrik's statement is to the point: "In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, like pieces hewn from a solid block." It's easy to see this inspiration... where the cross-rail and legs have been subtly sculpted it doesn't take much to imagine the space between being solid before the legs and frame are skilfully cut with delicate angles.

CARVER - generous proportions and versatility.

Simple, light, and minimalistic. Carver is design icon, that interact aesthetically with both architecture and the natural outdoor environment.

CARVER DINING

Like a visual harbour, accommodating a free and open layout. A comfortable match for a variety of style directions, due to the well-defined lines, and strong focus on the details.

CARVER DINING

A choice of materials and colours, makes it an essential focus point, where the nature of the function and the design, goes hand in hand with the tactile surfaces.

SPLIT

The legs of the Split table have a very characteristic look with an inverted 'Y' construction and tapering form, which emphasises a light and subtle connection to the ground. The uneven cutting of the teak table top slats adds an organic look, whilst tricking the eye with a visual surprise.

SPLIT

Thin and crisp twin panels of resilient, heatproof ceramic create a stunningly minimal, yet highly practical top surface. Available in a tough White or Meteor powder-coated finish the tables, while visually light and airy are exceptionally sturdy and are available in the three sizes - large, medium and small.

NAVIGATOR

Shaped by memories of a classic era of luxurious travel when adventurers and explorers sought portable comfort as they travelled, Navigator is a contemporary interpretation of vintage campaign furniture.

NAVIGATOR

To pinpoint a desired destination and take an unwavering path towards the identified goal, is the timeless task of the navigator. Pursuing one's adventures with such single-minded clarity invariably leads to inspired and fulfilling adventure. And a similar motivation has undeniably shaped Glyn Peter Machin's equally singular development of the Navigator collection for Gloster.

NAVIGATOR - flowing forms and a unique, inline folding X-frame.

Shaped by memories of a classic era of luxurious travel when adventurers, explorers and ambitious individuals sought portable comfort as they travelled, Navigators elegantly contoured teak frame, brushed stainless steel components and tailored integral cushioning, are contemporary interpretations of vintage campaign furniture.

NAVIGATOR DETAIL

The inline folding X-frames are achieved with ingenious, hidden engineering and paired perfectly with both fixed and articulated, brushed stainless steel junctions - cleverly elevating heritage style to pioneering plush.

NAVIGATOR DINING

Pursuing one's adventures with such single-minded clarity invariably leads to inspired and fulfilling adventure. And a similar motivation has undeniably shaped Glyn Peter Machin's equally singular development of the Navigator collection for Gloster.

NAVIGATOR

The versatility and practicality of folding furniture is transported to a new era through creative styling and sophisticated detailing. Focussed firmly on the 'less is more' principle of product design, both the folding chairs and stowable table that combine to form the chic Navigator trio artfully express traditional Danish Modern influences, with an added flare of opulence.

KASHA

The soft lines and natural tones of Kasha's rounded ceramic bases combine perfectly with solid, plantation teak table tops. Eye-catching and inspiring, these striking dining tables beautifully reflect light across their soft, round surfaces while adding character to any outdoor space.

RAW

In sharp contrast to the heavy and rustic form of the table top, the legs of the RAW Split table have a very characteristic look with an inverted 'Y' construction and tapering form, which emphasises a light and subtle connection to the ground.

RAW - strikes a unique balance
between rustic charm and elegant,
modern design.

The benchmark hardwood for fine outdoor furniture for more than 700 years. With a beautiful buffed sheen or a soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures.

RAW TABLE

This thoughtful design brings a harmonious blend of strength and sophistication to any outdoor space, celebrating both raw materials and delicate craftsmanship.

In normal mass production, timber is regulated, ordered, standardised to conform to strict manufacturing parameters. But with the Raw concept, we celebrate the unpredictable and revere the irregularity of nature. Raw furniture proudly displays every growth ring, every knot and every graceful ebb and flow of the wood grain formed as each of Gloster's plantation grown teak trees mature.

WHIRL

As the name suggests, Whirl by Danish Designer Henrik Pedersen is predominantly round. The signature table is of course based on a full disc - without a beginning or an end, as Pedersen says; "The perfect template for creating a place where you can come together and communicate freely. Indeed, the ideal shape for a table."

180

Henrik Pedersen is no stranger to simple practicality. The respected Danish designer has cleverly emulated lines of traditional wooden furniture using powder coated aluminium and weatherproof sling to create both the stand out 180 Stacking Chair and the equally impressive 180 Stacking Lounge Chair. Followed with the equally attractive and no less practical matching Stacking Lounger, all are available in a variety of finishes. Henrik says "Travelling, exploring and being inspired by the moment are essential to being able to see beyond tomorrow."

180

Starting with a simple chair, the no-nonsense lines of 180 have the hallmark of a functional favourite. With clearly matching design cues, a comfy lounge chair and lounger compliment this popular aluminium and sling collection. The same delicate geometric lines and straight-forward stacking system is applied to all pieces.

230 | 231

180 - Strict and functional lines to match any modern architecture.

With a silhouette almost like a sketched line, tracing an ergonomic contour, 180 makes a visual statement for how form and function can come together.

180 DINING

Simplicity and a clean expression, makes the 180 chair the ideal choice for any dining setting. Equally at home in a small setting or scale up to make a bold statement.

BORA

A combination of the tactile and the ethereal, Bora alludes to the imposing, climatic winds that buffet and ruffle the Adriatic coast. Simultaneously the name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos.

BORA

Bora combines the fine craftsmanship of an expertly crafted teak frame with the rounded expression of circles, extended to a soft and inviting seating comfort. The tactile and visual effect of a multi coloured weave completes the look.

A modern outdoor lounge area featuring a wooden deck, a glass-walled structure, and a pond with reeds. The scene is set in a lush, green environment with tall trees in the background. The glass structure has a dark frame and a light-colored interior. The deck is made of dark wood and holds a wicker chair, a wicker sofa, and a small table. The pond is filled with water and has reeds growing in it. The overall atmosphere is serene and modern.

BORA

The rounded expression of circles in the woven backs, create a soft and inviting seating comfort. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a peerless combination of fine craftsmanship and classic, mid-century, Scandinavian style.

BORA

Seating for all occasions is provided by a comprehensive range of Dining Chair, Lounge Chair, Sofa and Ottoman. All are available in two wicker combinations – either the bold and dark Umber or a lighter, warmer Sorrel colour, and incorporate luxurious seat and back cushions designed specifically for outdoor use.

A Bora lounge chair, featuring a light-colored wooden frame and a dark, woven backrest, is positioned in a lush green field. The chair is angled towards the right, offering a view of a dense forest and distant mountains. The sun is low in the sky, creating a warm, golden glow and lens flare effects. A low stone wall runs across the middle ground, separating the field from the forest. The overall scene is peaceful and evokes a sense of relaxation in nature.

BORA

Champion of many Gloster designs, Dane Henrik Pedersen offers an insight into the emotional origins of Bora; "In a sense we are combining the spirit and style of contrasting coastal cultures. A little from this sea, a little from that. The lines, strength and integrity of Scandinavian design cannot be missed in Bora's frame but the intricate use of woven fibres is different. They are inspired by island life of a much more tropical setting. Maybe it was the Bora winds that tumbled these materials together" he smiles.

BORA

A combination of the tactile and the ethereal, Bora alludes to the imposing winds that buffet the Adriatic coast.

BORA

The name evokes a sense of the remote and the exotic, painting a path to the horizon where oceans and skies meet and continents crumble into archipelagos. The Bora collection embraces these flights of fancy, pairing them with functional requirements to flow flawlessly into a form to be reckoned with.

BORA SUNLOUNGER

Bora is available in two wicker combinations – either the bold and dark Umber or a lighter, warmer Sorrel colour.

BORA SUNLOUNGER

Seating for all occasions is provided by a comprehensive range of lounge furniture, including a new lounge for 2024 season.

BORA - a combination of the tactile and the ethereal.

The rounded expression of circles in the woven backs, create a soft and inviting seating comfort. Inspiring trust and guaranteeing stability, a wide, strong stance is artfully formed from plantation teak in a peerless combination of fine craftsmanship and classic, mid-century, Scandinavian style.

BORA

The Bora collection consists of a Dining Chair, Lounge Chair, Sofa, Ottoman and Lounger, all incorporating luxurious seat and back cushions designed specifically for outdoor use. Although using manmade fibres, through a clever combination of individual strands of varying colour and the application of a distressed, tactile finish, Bora's woven element achieves an unquestionably natural simplicity.

BORA SUNLOUNGER

The lines, strength and integrity of Scandinavian design cannot be missed in Bora's signature teak frame.

Natural organic shapes are an obvious match with the outdoor space.

BORA DETAILS

The intricate use of Bora's woven fibres is inspired by island life in a tropical setting.

BORA

Although using manmade fibres, through a clever combination of individual strands of varying colour and the application of a distressed, tactile finish, Bora's woven element achieves an unquestionably natural simplicity.

DECK

Elegant and uniform, the linear style of Deck defines the Gloster design aesthetic. Inspired by teak decking on the fastest and finest sailing vessels of yesteryear, the simple, yet visually striking design invokes an uncompromising air of quality and craftsmanship. Arrange them any which way you find suitable, then rearrange once more. Deck lounge can be formulated as just a single module, or an infinite number for your perfect combination.

DECK

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Perfectly engineered to bear the weight of endless possibility and endure whatever tribulations may be encountered along the way, generous slats of resilient teak have been used for centuries to craft this impromptu footing for weary travellers, bold adventurers and pleasure seekers alike.

DECK

Broad, long teak slats are refined with impeccable precision by talented craftsmen and women. Every section is perfectly straight, perfectly spaced and perfectly finished in a series of complimentary curves. Elegant and uniform, the linear style of Deck exemplifies the Gloster design aesthetic.

DECK

Inspired by the styling cues of the fastest and finest sailing vessels of yesteryear, Deck's simple, yet visually striking design invokes an uncompromising air of quality and craftsmanship.

A photograph of a modern outdoor lounge area. In the foreground, there's a wooden deck with a low, modular lounge sofa and a matching coffee table. The sofa has light-colored cushions. The coffee table is made of horizontal wooden slats and holds a small plate of fruit and two books. To the right, another similar coffee table is visible. In the background, there's a large, light-colored wooden wall, a swimming pool, and a landscape with trees and hills under a blue sky with clouds.

DECK

Charged with the freedom of movement and possibility, Deck's newly introduced modular lounge furniture perfectly parallels the design language of previously launched Deck dining tables. With an equally unmissable presence, large, low and flat bases provide opportunity for endless seating combinations of unrestricted size.

DECK

Following the same design cues, teak coffee tables and sofa tables complete the Deck modular lounge range and provide additional opportunity for imaginative configuration with size and height allowing for stand-alone statement or seamless integration.

DECK

DECK

Crafted from solid plantation teak, the linear style of the Deck tables defines the Gloster design aesthetic. Inspired by teak decking on the fastest and finest sailing vessels of yesteryear, the simple, yet visually striking design invokes a uncompromising air of quality and craftsmanship.

DECK

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Perfectly engineered to bear the weight of endless possibility and weathers, whatever tribulations may be encountered along the way, generous slats of resilient teak have been used for centuries to craft this impromptu footing for weary travellers, inspired adventurers and pleasure seekers alike.

While the sheer scale of Deck dining tables alone would be sufficient to explain this seafaring appellation, the slightest glance will reveal there is so much more that inspires this imposing synergy. Immaculately parallel lines of teak race top to bottom of Decks broad legs and flow into the expansive top in a feat of engineering beyond compare. These broad, long slats are finished with impeccable precision by talented craftsmen and women in a series of complimentary curves. Every section is perfectly straight, perfectly spaced and perfectly finished.

CERCAL HOUSE

In a rural niche of southern Portugal, a beautiful tale plays out. As the clock turned and trade evolved from task to tourism, school friends became architect and client. The strength of the bond translated to a special understanding in the commission. As a result, Cercal House, nestled into the undulations of a long dry water course, combines an intimate collection of details hidden from the world.

And the perfect furniture to complement this striking rural retreat? Lima modular seating by Henrik Pedersen complemented with Ambient Mesh outdoor lighting.

LIMA STORAGE CHEST & SERVING TABLE

Practicality combines with fine design with the Lima storage chest and serving table. Two elements defined in the same dimensions, yet catering for very different requirements.

LIMA

Plantation teak, outdoor wicker, natural leather and soft-to-the-touch, textured fabrics combine in a subtle mix, where you can sit down, hang out, and feel the warm embrace of nature.

LIMA

With practicality always in mind, the simple flexibility of the Lima modular elements ensures that you can configure your hideaway however you like. A generous, sociable seating set or a more intimate chaise-longue or sofa - with Lima the only limitation is your imagination.

LIMA

As an extension to the existing Lima seating collection, Lima Dining talks the same design language – one of simplicity, honesty and a deep sense of quality and genuine craftsmanship. An expression rooted in the Scandinavian tradition, where warm, natural and tactile materials are combined in a simple but aesthetic unity.

LIMA DETAIL

Lima Dining talks a design language of simplicity, honesty and a deep sense of quality and genuine craftsmanship.

LIMA DINING

An expression rooted in the Scandinavian tradition, where warm, natural and tactile materials are combined in a simple but aesthetic unity.

LIMA DINING

The Lima collection, which has a strong and clear reference to Nordic design traditions, is now complemented by a new bar chair and ceramic top dining tables.

LIMA - the only limitation is your imagination.

Plantation teak and outdoor wicker combine in a subtle mix, where you can sit down and feel the warm embrace of nature.

LIMA

The essence of natural and tactile materials are brought together into one, defined element. Plantation teak and outdoor wicker are combined in a subtle mix with nature very much in mind throughout the whole design. The variegated colour all-weather wicker features a subtle, distressed finish - giving the furniture a familiar and rustic feel.

294 | 295

FRESCO

Twinkling lights pierce a fading sunset on the Riviera. Light and mist vie for dominion of silvery Malibu dawns. Black basalt cobbles radiate warmth as street-life spills into the twilight of a Rome evening. From early in the 1960's, these locations have shared something unique. A certain light, an air, a 'joie de veuve' that captured the imagination of early pioneers of design and experience and continues to draw those with an appetite for refinement and exploration today.

Designed by Matteo Thun, Fresco embraces this spirit and style, re-invigorating it with new materials for the current generation of sun seekers and socialites. Combining all of the chic of yesteryear with the benefits of environmentally friendly processes, durable yet comfortable and practical materials and meticulously handcrafted detail.

FRESCO

Fresco picks up on the spirit of the 1960's - the timelessness, the ease and the elegance of terraces in Rome, Aspen, the Riviera and Malibu at that time. The light, almost floating seat element on the white, powder-coated aluminum frame resembles a shell and results in an organic and ergonomic shape.

FERN

The Fern collection is available with seat and back cushions available in a wide selection of soft-to-the-touch fabrics designed by Sebastian Herkner, who worked directly with Glen Raven and Sunbrella in the United States to create a collection of unique outdoor fabrics that both embrace and support for the ultimate comfortable and cosy seating experience.

FERN

Fern features Gloster's signature buffed teak base frame married to a tough, powder coated aluminium back rest, expertly hand-woven with soft-touch, outdoor rope. Available in two different colour-ways - Meteor colour frame with Raven colour outdoor rope or White colour frame with Dune colour outdoor rope, there is both a style and a colour pallet to match every environment.

FERN

Inspired by the delicate fronds of a unfurling fern leaf, the Fern range by Sebastian Herkner is an imposing, yet cosy lounge range with a design language that harks back to nature.

308 | 309

FERN

Combining Gloster's signature plantation teak with a soft finish outdoor rope, the enveloping, woven back rest both protects and provides the comfort and is attached to a typically Scandinavian style teak frame, which mirrors its contours and underlines the comfort aspects. Two heights of the backrests give the Fern collection two distinct characters - a sumptuous, low lounge chair and a more intimate high back wing chair.

INTO THE WOODS

Anchored to a Braga hillside high above the Cávado River this concrete, glass and timber fortress protects its occupants from the world behind cantilevered shutters. The only interference, a chattering mountain stream - winds through the architecture to spill from a naturally filtered pool - escaping beneath a vast terrace in the expansive gardens below.

For all its presence, this striking family home by firm Carvalho Araújo, hunkers down amongst old winding roads and hillside plots - almost disappearing amongst the tall eucalyptus. Only upon entering this imposing sanctum can you really appreciate its scale.

KAY

The backrest is unquestionably the defining statement of the Kay range. Deliberately oversized and beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter. Available in either Brindle, Harvest or Copper colour 'French Cane' style all-weather wicker combined with a delicate teak frame, Kay's lines combine timeless style with practical comfort.

KAY

The Kay collection is comprised of two and three seater sofas, dining chair, lounge chair, rocking chair, lounge and ottoman. High and low variations of the back panel are available as options and can be used to create a fully consistent level or a variation in back heights depending on how you wish to style your space.

KAY – comfort combines with effortless style.

With a dramatically curved back, Kay by Henrik Pedersen makes no secret of the defining factors in the design.

KAY DINING

Kay combines weatherproof and durable materials with a timeless teak frame to create a collection that's both comfortable and welcoming.

KAY AND WHIRL DINING

Plantation teak and outdoor wicker combine in a striking combination.

KAY DETAIL

Colour matched seat and back cushions are constructed using all weather padding and fabrics.

SARANAC

SARANAC

Invoke memories of slower times and a different pace of life. Riverside, lakeside, seaboard. Bounded with cinematic landscapes, giant redwoods and cavernous skies. Imagine the perfect temperature, a moment in the day when nothing intrudes. Add comfort of an unprecedented level packaged with definitive style and premium materials. Picture this luxury outdoors. Without the constraints of four walls, where instead your limits are the horizon and an ever expanding canopy, pinned with infinite stars.

SARANAC

Imagine the perfect temperature, a moment in the day when nothing intrudes. Add comfort of an unprecedented level packaged with definitive style and premium materials. Picture this luxury outdoors. Without the constraints of four walls, where instead your limits are the horizon and an ever expanding canopy, pinned with infinite stars.

SARANAC

Showcasing a solid teak frame with a gentle nod to mid-century influence, Saranac's distinctly contemporary lines please the eye from all angles allowing the collection to appear equally at home in spaces of varying size.

SARANAC

London designer Mark Gabbertas spared nothing to ensure Saranac's sustainably sourced, historically influenced frame incorporated the finest materials and delivered the most sophisticated finish. A woven outdoor rope back in rich Raven colour is strung taught above gently angled and tapered legs. Backs and arms are fully refined with a tactile rounded teak cap.

334 | **335**

ARCHI

Renowned Danish designer Henrik Pedersen combines two simple materials to produce a Lounge Chair that defines the concept of understated elegance. As Henrik says, "The challenge of this design was to create a complex solution from the simplest palette – almost to create everything from nothing. I wanted to create the purest form of seating with the most traditional of materials and yet attain both comfort and a design statement that surpassed more opulent routes".

ARCHI & RAW™

Be unique. Raw furniture proudly displays every growth ring, every knot and every graceful ebb and flow of the wood grain formed as each of Gloster's plantation grown teak trees mature. A story of passion told over as many as 70 years of growth, you can share the journey with the Raw furniture collection.

ARCHI – lines creating shapes.

Archi is a statement of sublime craftsmanship, but at the same time a minimalist wooden chair. Details are the focus point, allowing for the wrapped backpiece to be centre stage and the visual identity for the whole Archi collection.

ARCHI DINING

The curved and angled back are the core factors for a soft and natural landing. The rounded back piece catches you in a welcoming way, and the use of rope as an upholstery material gives the impression of outdoor performance and indoor expression.

SWAY LOUNGER

With Sway, Danish designer Henrik Pedersen combines a finely proportioned teak frame with a practical sling seat and back to deliver inherent sprung comfort. A striking new lounge element is a recent addition to the collection.

SWAY

Henrik Pedersen says: "In outdoor situations we often spend more time relaxing and lounging, and when dining we tend to take our time. So why not make the situation as comfortable as possible?" With Sway, the Danish designer has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent sprung comfort despite an extremely minimal profile.

SWAY – a collection of contrasts.

The combination of tactile woodwork, and the super-slim expression of a soft textile sling, makes for high comfort without any visual compromise.

SWAY DINING

Visually strong enough to stand alone, but equally suited to a larger arrangement, the combination of wood and metal, makes Sway visually versatile. A match for both wood, stone or metal tables in any architectural setting.

SWAY DINING

The difference is to be found in the details – where soft wooden structures come together with the more ridged, metal elements.

WHAT IS A HOME WITHOUT A FEW UNIQUE ENHANCEMENTS TO ADD THAT FINAL TOUCH OF STYLE? SOLAR POWERED, WIRELESS OUTDOOR LIGHTING, HEAVY DUTY OUTDOOR RUGS, DUAL-FUNCTION STOOLS / SIDE TABLES AND A RUSTIC BASKET TO KEEP SMALL ITEMS SAFE AND AT HAND. COMBINING TACTILE MATERIALS WITH BEAUTIFULLY DETAILED FINISHES, THE GLOSTER RANGE OF ACCESSORY ITEMS IS THE STYLISH WAY TO BRING YOUR OUTDOOR EXPERIENCE TO LIFE.

ACCESSORIES

AMBIENT SOL

From daybreak to dusk we are illuminated, comforted and inspired by our nearest star. An imposing disc, its appearance beyond the horizon is synonymous with positivity, growth and new beginnings. Its gleaming arc has inspired awe since time began and as its daily cycle nears completion, the world is united in appreciation of its beauty.

Like its solar namesake, Sol's presence heralds a wonderful day ahead. But in a narrative shift, as the day lengthens, Sol only shines brighter. A stylish and dramatic shade by day, a beautifully integrated LED light unit provides subtle illumination as evening approaches and the shadows fade into night.

AMBIENT SOL

Available with either a Meteor or White powder coated, aluminium frame, Sol's canopy is formed using Sorrel wicker, a strikingly satisfying combination of naturally textured and variegated fibres, hand woven to achieve a lattice effect that results in an enticing dappled shade instead of the solid shadow cast by traditional fabric canopies.

AMBIANCE

Light extends the scope of outdoor living and is an essential part of the Gloster collection. Our portable lights create the right ambiance and set the mood for an overall warm and cosy experience in almost any outdoor space.

AMBIENT RAY

Like the beams of sunlight breaking through gathering clouds, the Ambient Ray lantern both illuminates and inspires. Expertly crafted from fine sections of rounded teak and topped with a natural leather handle, this striking, yet practical outdoor light is the perfect addition to any outdoor space.

AMBIENT PEBBLE

Danish Designer Henrik Pedersen says of his creation; “with its friendly shape and natural textures it’s hard not to personify Pebble. So why not invite pebble, invite ambience, invite warmth into your home and see if your evenings and your laughter last a little longer?”

AMBIENT PEBBLE

With little consideration for the clock, these friendly looking sentinels stand proudly in any setting. The satin finish of their marbled, natural stone bases in Carbon or Fire pairs perfectly with the subtle texture of the resilient Meteor or Terracotta powder coated surface of their gently curving aluminium shades.

PEBBLE LIGHTING

Light is a major part of creating any setting, and especially for outdoor spaces. A multitude of lights can define an almost imaginary room, like small cosy beacons in the dark.

PEBBLE - discreet dimensions with a big impact.

While being the smallest member of the Ambient family, Pebble still makes a strong visual impact.

PEBBLE LIGHTING

A small icon on it's own, but just as great in a group. Any kind of repetition is indeed ideal for the Pebble lamp.

AMBIENT LINE

Elegant and precious. Using a mouth-blown, smoked glass cylinder with retro styled ribbed glass detailing and a cast metal frame, Ambient Line by Sebastian Herkner is a classical solution to portable outdoor lighting.

AMBIENT COCOON

Enjoy outdoor living even after the sun goes down. Portable, remote controlled illumination with style, but without strings. Charge during the day and use at night to create the perfect mood.

Mimicking the perfect texture and symmetry of silk cocoons, these minimal and delicate looking lanterns are deceptively tough. Manufactured from modern plastics and combined with a striking solid, teak handle of almost agricultural purity, these (solar LED) lights are as much about design as they are about illumination.

COCOON

Asked about the design influences, designer Henrik Pedersen says “My path in design has led me through many parts of the world, many cultures... Light and warmth are always principal parts of the best social environments and the most modest of devices are often the most effective. Here I combine the worlds of simplicity and light to achieve beautiful background illumination.

372 | **373**

LIGHT & SHADOW MAKE THE SHAPES COME ALIVE

Like semi-transparent structures, they present themselves in the dark. A beacon calling out, inviting you in and creating an imaginary room with a soft and warm ambiance.

AMBIENT MESH - Architectural simplicity mixed with a hand-crafted expression.

A fine latticework balanced on a stalk with a soft, tapering transition to the ground, creating both contrast and harmony at the same time. Acting like a visual counterweight to strict and modern architecture.

AMBIENT MESH

Ideal for both stand-alone placement, and as a part of any arrangement. The different heights create a dynamic setting that is easy to place and just as easy to reposition.

AMBIENT MESH

The mesh structure makes it a team player, where tactile surfaces easily combine with other furniture pieces - both lighting or lounging.

AMBIENT MESH

Ambient Mesh by Henrik Pedersen hints to rustic origins. Here, the latticework of woven shades in a variety of sizes and colours, paints a subtle pattern in the dark - breaking up straight lines and creating a whole new set of outdoor decorations.

AMBIENT

LANTERN & NEST

Inspired by the precise designs of the weaver bird, these nest like suspended lanterns gently rotate and sway in the evening breeze. As the night draws in, the soft light shining through the detailed weave throws dancing shadows as the setting sun shimmers through the leaves.

FIRE BOWL

Like moths to the light, we are all drawn towards a flickering flame. As the day draws to a close and the temperature drops, kick back and relax with friends and family - a fire bowl creating the perfect focal point to enjoy the setting sun whilst enjoying the warmth of good company.

HALO

PARASOL

Although we all crave the sunlight, shade also has it's own unique appeal. The Halo collection of parasols feature sturdy, aluminium frames and heavy-duty Sunbrella fabric canopies. Available as both standard push-up and practical canteliver versions, with Halo, somewhere to cool off and get away from the midday sun is never far away.

GARDEN SHOWER

What is a home without a few unique enhancements to add that final touch of Style? The Deco range of occasional items is the stylish way to bring your outdoor experience to life. Of course, outdoor living and cool, refreshing water goes together and the new Deco Garden Shower offers exactly this.

GARDEN SHOWER

Always nice to the touch, Teak is the perfect choice to put your feet on, because it's never hot in the sun, and never cold in the shade. The teak base on the Deco Garden Shower is combined with a clear and defined design for the frame- based on lower and upper rings, connected by one single straight line. To finish the design, a shower head in warm, polished brass colour is a subtle reference to the real solar disc above.

SEPAL

The forms of the natural world have always provided motivation for designers. The Sepal collection finds its inspiration in the giant floating water lilies that somehow look as though they were engineered by a human hand. With an upturned edge, these can form pads which gently intermingle and create their own pattern on the water. The tables use a ceramic top, edged in powder coated aluminium, which sits on a simple, but beautifully detailed, equilateral teak frame. This pure geometry makes the Sepal table extremely versatile and able to be paired with a variety of Gloster collections. It also allows the two sizes of table when used together to overlap and suggest in turn their own natural rhythm.

COSO

Rerem explatum cum fugit eicid que re, inullat apiente consequenihiciisto intempo rerferia
percium earum idellupta doluptat aut laut mil ipsant omni rehendamus etus aut ex eium
commo tem quiatusam et derissim seque litas non repres ea nulla sunt, solessi vent eos
alis et eum qui utem numqui destionseque eat.

COSO

Beautiful and tactile ceramic is the foundation of the Coso collection. The striking contrast between a rustic natural ceramic surface and a deep glaze with natural light reflections, becomes a playful contract, that can be emphasized further by the mixing of the three different, earthy colours. To complete the aesthetic, a natural, warm teak top is removable – making the table both functional and charming at the same time.

BLOW

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with solid, teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces and compliment any item in the Gloster range while adding character to any outdoor space.

ARBOR

Inspired by the elegance and precision of engineering components, Arbor is a versatile occasional table. The design itself is deceptively simple and is engineered from a number of perfectly machined solid teak parts, which are turned to a perfect radius and artfully finished with crisp, vertical groove detailing.

BLOCK

Crafted by bonding staves of solid, plantation teak together into a sturdy structure, Block features a hard-wearing and visually striking surface of end-grain squares. The collection is extended for 2023 season with a new round Side Table and Coffee Table.

BELLS A CURVACEOUS CLASSIC

The inspiration is almost too obvious - two bells joined together to make up the shape of this iconic side table. The organic and fluid lines make an eye-catching addition to any outdoor area.

RUGS

Heavy duty outdoor rugs are available in either round or rectangular sizes and in several stylish colours of braid. These rugs are woven and are the perfect complement to provide that finishing touch to both dining and seating sets.

GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offer this range of exclusive, knitted outdoor fabrics, the first to be produced using 100% solution dyed acrylic yarns. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.
